# IOS Email Setup

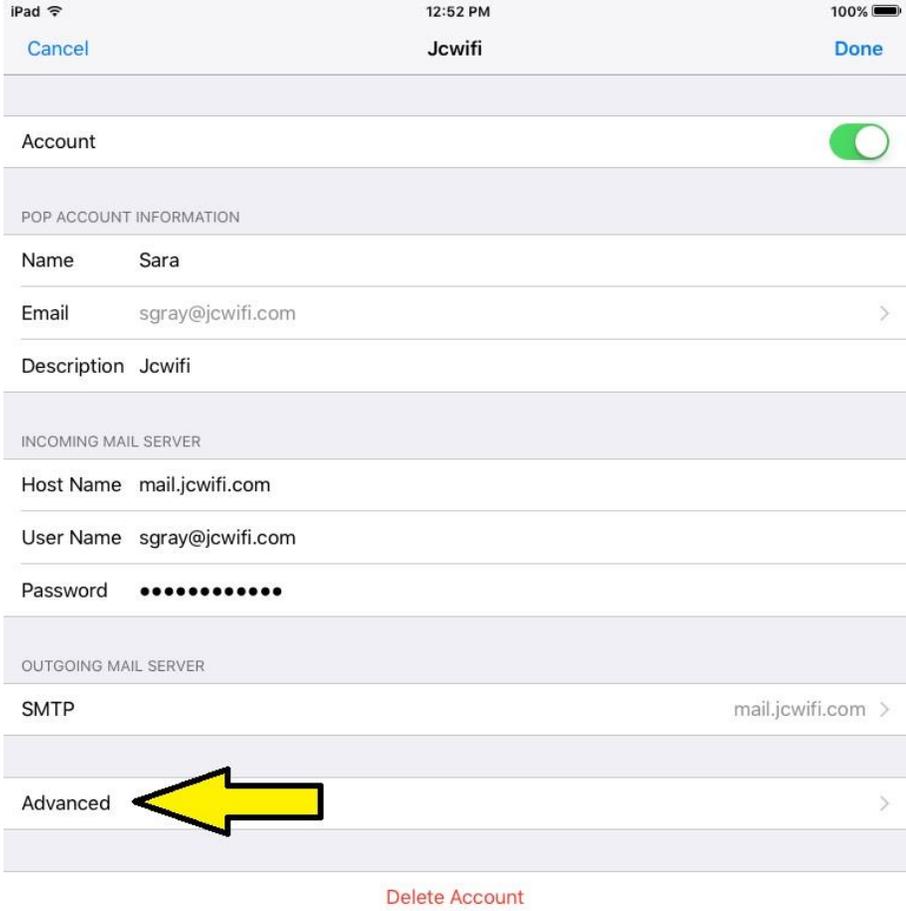

Click on the Settings icon.

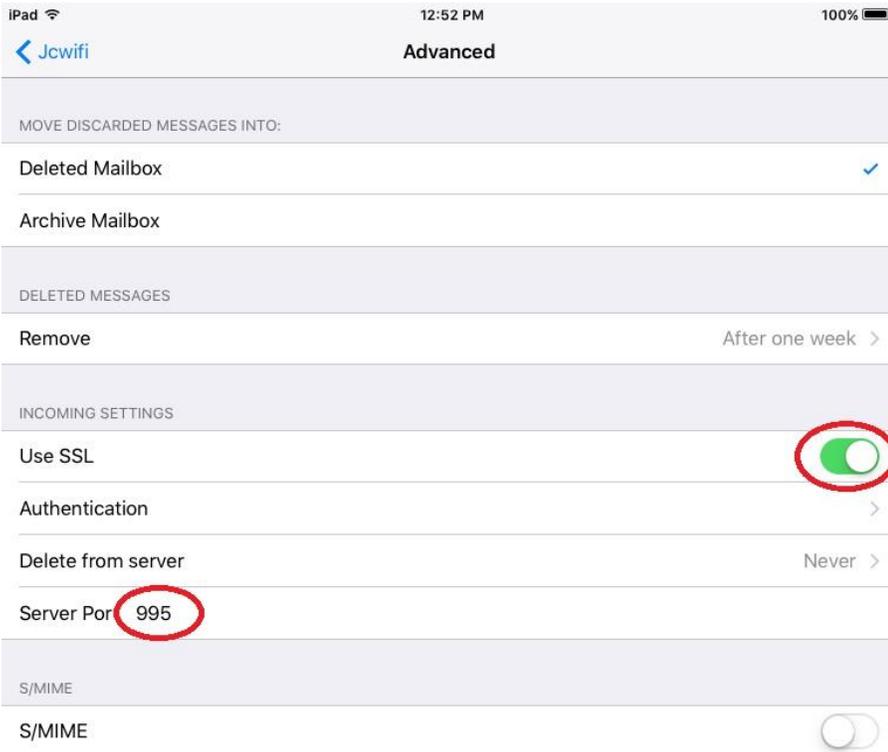

Click on Mail, Contacts, Calendars.

Under Accounts on the right side, click on your email account.

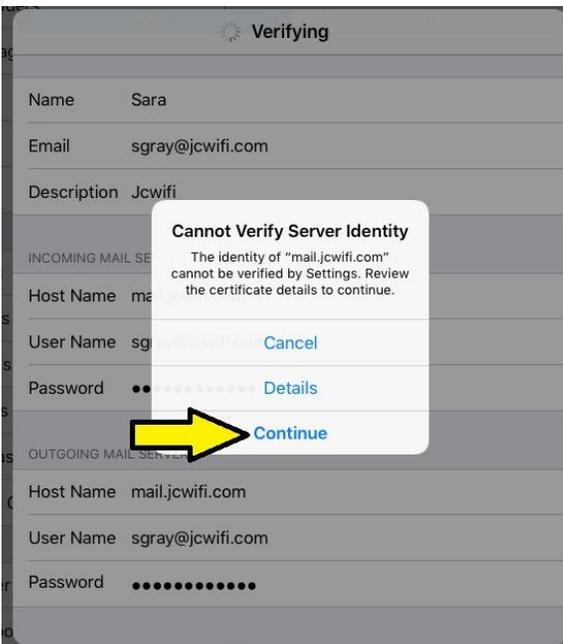

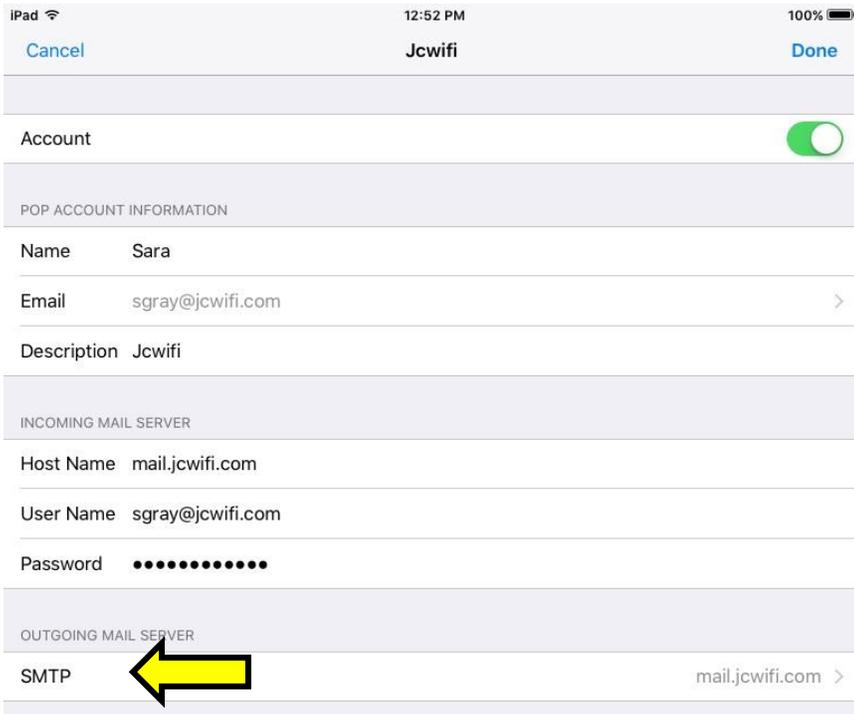

Click on Advanced at the bottom

Change the following settings under Incoming Settings.

1. Turn ON Use SSL
2. Set the Server Port to 995

Then click the back arrow at the top left

Click on Continue to accept the certificate for the server.

Click on SMTP.

Under Primary Server, click on the mail server.

Make the following changes.

1. Turn ON Use SSL.
2. Change the Server Port to 465. If 465 doesn't work, try 587.

Then click Done in the top right corner.
